

Workshop in aero-acoustics in confined flows of low Mach number

Thursday 22 May

8.00-8.30	Coffee	
8.30-9.30	Fundamental Aeroacoustics of ducted flows	Susann Boij
9.30-10.30	Experimental methods for in-duct aeroacoustic measurements	Hans Bodén
10.30-11.00	Coffee	
11.00-12.00	Acoustic boundary condition at a open pipe termination exhausting hot gasses	Mico Hirschberg
12.00-13.30	LUNCH	
13.30-14.30	Non-modal analysis in aeroacoustics	Sujtjh R.
14.30-15.30	Hyrbrid methods in CAA	Paula Martinez
15.30-16.00	Coffee	
16.00-17.00	LES in low Mach number aeroacoustics	Emma Alenius
17.00-18.00	Aeroacoustics measurement techniques in industrial applications	Eva Persson
18.00-	Workshop buffé at KTH	

Friday 23 May

8.00-8.30	Coffee	
8.30-9.00	Introduction to the group work	
9.00-11.30	Group work on a given journal paper	
11.30-12.00	Reunion in the large group	
12.05-13.00	Entropy noise (common lunch seminar for the whole MWL)	Aimee Morgans
13.00-14.30	Group presentation	
14.30-15.00	Reflection and conclusions
